2022

PSEO Student

Warren finished his junior year and started his senior year of high school doing PSEO (Postsecondary Enrollment Options) at St. Cloud Community College. He is enrolled in their medium/heavy truck technician program (diesel mechanics).

Warren was selected to participate in the state skills competition where he took second place in the high school division. Started working at Plaisted Landscape Supply helping maintain their fleet of trucks and trailers.

He turned 18 this past summer. His dog Buddy was hoping to get a piece of the cake but that wasn't going to happen.

Warren continues to work on small and large engine projects. The word has gotten around in the area that he is a "go to" guy to fix small engines. There always seems to be one or two projects in the yard or driveway.

He sold the 1977 Ford F150 that he and his friend rescued from a neighbor's barn and fixed up. He is currently down to only 3 trucks and his commuter car.

Warren took a long weekend trip to South Dakota. One thing he did there was to see the legendary Case 150 steam traction engine.

This tractor may only produce 150 horsepower but it has pulled 50 bottom plows at the same time.

Has It Been 40 Years?

This summer, Arthur celebrated his 40th high school graduation with a bunch of his classmates.

If you don't see him in the picture, he is in the back row, middle. He had a good time reconnecting with people he hadn't seen in a long time and catching up with those he does see more often.

Bonnie Turns 14

Bonnie continues to enjoy playing piano and violin. It is enjoyable to hear her practicing and you can hear her throughout the house.

Despite the lack of rain this summer, Bonnie was able to keep her garden watered and producing peas, beans, and carrots. She was a big help keeping the blueberries and raspberries watered.

Buck Frenzy

Bonnie went to the dads and kids weekend this summer along with Warren and Arthur. They camped out in tents, cooked over the open fire, went hiking, threw axes, played Octoball, shot targets, and played some midnight golf under a new moon.

Bonnie shot a high-powered rifle for the first time and in one shot, at 100 yards, she hit her target and blew it up.

Throughout the year, Warren and Bonnie enjoyed playing ultimate Frisbee, king of the raft, and broomball. They both enjoy being outside and being with friends.

Happy holidays to all!

*Arthur, Barbara,
Warren, & Bonnie*
